The Business Narrative

We are building to be stronger and as a high-growth company, we need to keep transforming to meet the needs of our global customers while continuing to build for our future. As such, we are committed to enhancing our global compliance organization. With alignment to our business strategy, the **Director, Compliance Officer (Neurovascular)** will play a leadership role by taking a thoughtful approach to understanding Stryker's business and culture.

Daily, we work together with our customers, striving to create quality products that improve and save the lives of millions of people around the world. To this end, this is a great opportunity to impact and contribute to us continuing to win in the Med Tech industry.

Position profile

The **Director, Compliance Officer (Neurovascular)** is a senior member of the Compliance organization and oversees the Compliance program for the Neurovascular division with a high level of independence. This executive is responsible for developing the Compliance program strategy within the Neurovascular business to enable business results and effectively manage compliance risk for the company. This role leads the Neurovascular Compliance Committee, drives alignment to the Global Commercial Compliance and Privacy strategy, and influences senior leadership and other stakeholders in identifying risks and implementing appropriate mitigation efforts. This position is also responsible for ensuring the specific needs of Neurovascular are considered in strategic decisions regarding the Compliance Program and adapting global initiatives to meet business needs. This executive is responsible for partnering with Senior Leadership to maintain compliance with laws, regulations, and standards and support a culture of ethics and integrity.

Responsibilities and duties

- Oversee the Compliance program for the Neurovascular business, including coordination of activities with Compliance Programs in countries in which Neurovascular operates.
- Influence and partner with senior business leaders to effectively enable business results and manage significant compliance risks.
- Establish tone at the top with leadership teams and drive a culture of ethics, integrity and compliance.
- Oversee development and delivery of training, policies, and guidance that are in line with business goals and the Compliance strategy.
- Act as a senior leader within the Medical Surgical and NeuroTechnology group of the Global Commercial Compliance and Privacy organization.
- Implement the Compliance strategy and goals within Neurovascular to empower business leadership and effectively manage risk for the company.
- Develop programs to ensure organizational compliance with relevant laws, regulations, and standards across regions.
- Ensure effective compliance controls are in place, including written standards, education and communication, auditing and monitoring, third-party oversight, and corrective action.
- Provide input to support continuous improvement of the compliance program and to reflect changes, clarifications, or updates in applicable law, regulations, policy, and business strategy.
- Foster a continuous improvement mindset and propose enhancements to the Program informed by industry trends and best practices.
- Maintain deep knowledge of the business and operations; use knowledge of business and compliance metrics to inform the strategy and goals.
- Lead continuous improvement efforts to increase efficiency, simplicity, and speed of action.
- Support the Global Commercial Compliance and Privacy Leadership Team in reporting on the status of compliance program on a regular basis.
- Maintain knowledge of relevant laws, regulations, and industry standards.
- Raise awareness of the compliance program and promote accountability for ethics and integrity.
- Participate in industry associations and engagements to raise the profile of the Compliance program and the company.
