Customized In-House Trainings

If you have 10 or more students ask about our in-house training options. We can personalize and customize a training around your unique world of products and technologies. We can also cover additional topics including FTA, country of origin and valuation. For more information, email us at training@mastersmethod.com.

Over 2,500 Trade Professionals! Over 1,000 praising testimonials!
The World's Most Popular Classification Training

Export 1-Day Classification Training

After this training, all students will have the skill and confidence to....

- Use a legally sound and proven step by step method to quickly and accurately classify in the USML and ECCN
- Understand the unique language and layout of the USML and ECCN
- Use notes, technical notes, definition of terms and other valuable resources to support your classifications
- Correctly determine classifications under either the ECCN or USML
- Apply the catch and release rule to limit export controls
- Document and defend each classification using our Masters Method Defender Tool

HTS 2-Day Classification Training

After this training, all students will have the skill and confidence to...

- Use a legally sound and proven step by step method to quickly and accurately classify in the HTS
- Correctly classify parts, finished goods, incomplete goods, composite goods, and sets
- Quickly navigate the unique language and layout of the HTS
- Use section and chapter notes to achieve the most accurate HTS classifications
- Understand and apply the 13 most valuable resources to support your HTS classifications
- Document and defend each classification using our Masters Method Defender Tool
