Job Description / Responsibilities / Requirements

Job Description

When you're part of the team at Thermo Fisher Scientific, you'll do important work. And you'll have the opportunity for continual growth and learning in a culture that empowers your development. With revenues of more than \$40 billion and the largest investment in R&D in the industry, we give our people the resources and opportunities to make significant contributions to the world.

Specific Responsibilities: Responsible for performing tasks associated with international trade facilitation and compliance in accordance with all government regulations.

- Ensure the proper HTS classification, ECCN, valuation, marking, and country of origin of imported and exported merchandise and the proper use of duty preference programs
- Ensure compliance with Customs and all other partnering government agencies
- Act as a resource for researching, providing guidance, and responding to Customs compliance questions from various company departments and divisions
- Serve as contact for Customs brokers to insure the proper declaration of information and provide discrepancy resolution to ensure timely processing of entries
- Support the development, maintenance, and delivery of internal training programs as necessary
- Assist in the review, development, and implementation of Customs Compliance procedures while complying with all federal regulations
 - Maintain Customs Compliance databases as necessary
 - Maintain records in accordance to Customs and Thermo Fisher's record retention policies

- Develop corrective action recommendations for non-compliance of any policies, laws, regulations, or contract requirements
- Process internal post-entry amendments to ensure compliance with Customs regulations
- Identify opportunities for duty refunds and savings including classification, valuation, trade programs, and duty drawback
- Generate compliance metrics for reporting within the department and to management
- Perform other compliance related duties and/or projects as required, including, but not limited, to: supply chain security, export reviews and licensing, and performing audits
- Other duties as assigned

The Requirements

The position is ideal for a candidate that is prepared to adopt an important role within Thermo Fisher Company which is a combination of creative work, routine, and work within Trade Compliance and Customs law. The successful candidate will determine and assign Export and Import data and information. In addition, this person will perform data transfer tasks, generate reports to measure data quality, and resolve process issues to ensure global standardization of product data within Thermo Fisher.

The candidate will possess the following combination of education and experience:

- College degree preferred and 3-5 years related Customs compliance, import/export operational experience required
- Knowledge of HTSUS, GRIs, Binding Rulings, Explanatory Notes, Valuation, Rules of Origin, ECCN's, FTA's, CROSS and C-TPAT
- Experience with other Government Agency compliance
- Able to identify and take corrective action in resolving Customs issues as they relate to internal systems, processes, customers, suppliers, and service providers
- Proficient in using Microsoft Office applications (i.e. Word, Excel, Outlook,)(Access and Visio a plus)
- Knowledge of ERP systems (QAD is a plus)
- Attendance and accountability is a critical function of this position

The Competencies

The successful candidate will possess the following competencies:

- A cooperative team player with a strong sense of responsibility
- Strong interpersonal communication skills both verbal and written

- Detail oriented, quality and process driven, pro-active, able to cope with stress, good problem solving skills and setting priorities
- Self-motivated with the ability to simultaneously manage multiple time-sensitive tasks
- Able to work independently with minimal supervision
- A commitment to detail, accuracy, and follow-through
- Excellent analytical and problem solving skills
