At the Diagnostics platform at Danaher, you'll thrive and quickly see the impact of your contribution.

Join us in working at the pace of change to improve patient lives!

The **Global Export Compliance Manager** will play a vital role in supporting the Director, Trade Compliance to build a successful trade compliance program as part of the *Platform Trade Compliance Team*. The critical requirement of this role is to establish and manage the Export Compliance Program to support all Operating Companies in the Diagnostic's Platform globally. You will develop and implement export compliance improvement processes, including but not limited to: export screening, due diligence, licensing, export classification, and audits. The candidate must be comfortable working in a matrix organization and must be able to influence employees that are not direct reports.

To be successful, you will have extensive knowledge of: Export Administration Regulations (EAR) of the U.S. Department of Commerce Bureau of Industry and Security, Treasury Office of Foreign Assets Control (OFAC) Regulations, International Traffic and Arms Regulations (ITAR) of the U.S. Department of State, and other applicable Export rules and regulations. Our Trade Compliance team maintains compliance with international customs laws and regulations while driving customer satisfaction. We ensure compliance with all aspects of customs and trade requirements. Our team also partners closely with cross-functional teams in strategic planning and implementing customs and trade initiatives globally.

This position is eligible for a remote work arrangement. If candidate resides within a commutable distance to Brea, CA, a hybrid work arrangement is also available.

**Specific duties include but are not limited to:**

- Act as a strategic business advisor on global export matters, including the EAR, ITAR, and OFAC compliance
- Guide OpCo Trade Compliance global team members in their day-to-day compliance matters, including customer and transaction screening, ECCN/dual-use classification, use/user restrictions, sanctions, export license determinations, anti-boycott reviews, and license applications

- Develop and implement automation processes for export screening
