WHAT YOU WILL LEARN

Module 1 – Customs for Business: Gain a broad understanding of Customs and its impact on business and supply chains.

Module 2 – Risk Analysis & Compliance (incl. Incoterms®): Build practical skills to identify and manage risk in international trade. Includes detailed coverage of Incoterms® and key elements of international contracts.

Module 3 – Classification & Tariffs: Covers all aspects of goods classification: application, validation, GIR, BTI, and use of online tools like TARIC.

Module 4 – Valuation: Explore how Customs value is determined under international rules. Learn key valuation concepts, legal frameworks, and calculation methods.

Module 5 – Rules of Origin: Understand how to determine the economic nationality of goods, including preferential and non-preferential origin, legislation, BOI, and proof of origin.

Module 6 – Supply Chain Operations: Covers import, export, and transit within global Customs flows. Focus on efficient, secure supply chains and Customs integration.

Module 7 – Prohibitions & Restrictions: Learn how to identify and manage restricted goods, including Dual-Use and counterfeit items, and their implications for Customs processes.
