

## **Export Control Compliance Specialist**

Hybrid, Brea, California, United States

### **Description**

The Export Control Analyst will support our export compliance program by conducting detailed analysis of export transactions, performing regulatory research, and assisting with compliance assessments. This role focuses on the analytical aspects of export control compliance, including data analysis, regulatory interpretation, and supporting documentation review under the guidance of senior export control professionals

### **Duties and Responsibilities:**

- Analyze export transactions for compliance with EAR, ITAR, OFAC and FTR regulations
- Support item classifications (ECCN, HTS, and Schedule B) and technical parameter assessments
- Review export documentation for accuracy and completeness
- Perform end-user and end-use analysis to identify potential red flags
- Support license application preparation through data gathering and analysis
- Research and analyze export control regulations and regulatory updates
- Monitor Federal Register notices and agency guidance for compliance implications
- Conduct comparative analysis of regulatory requirements across different jurisdictions
- Maintain current knowledge of export control lists, country groups, and licensing policies
- Maintain and update export control databases and tracking systems
- Conduct data analysis to identify trends and potential compliance issues
- Support audit activities by preparing documentation and analysis reports
- Assist with regulatory filings and correspondence preparation
- Perform restricted party screening using screening tools (Visual Compliance or OCR EASE) and government databases
- Verify customer information and conduct enhanced due diligence reviews
- Analyze shipping routes and intermediary parties for compliance concerns
- Support investigations and resolution of potential compliance issues
- Maintain export control and import compliance records and documentation
- Support in the development, implementation, dissemination, and maintenance of internal compliance procedures
- Support the preparation and delivery of compliance training on export control topics.
- Support key trade compliance initiatives and projects as required.
- Maintain expertise in international trade regulatory areas i.e. EAR, ITAR, CBP, FTR, OFAC, FTA, and global trade regulations.
- Monitor, research and interpret regulations and requirements.

## **Requirements**

- 5+ years of work experience of export control regulations (EAR, OFAC, ITAR) and operations
- Bachelor's Degree in International Business or related field
- Knowledge of international trade documentation, shipping processes, and Incoterms
- Strong analytical and research skills
- Working knowledge of item classification (EAR ECCN, USML Category, HTS, and Schedule B)
- High level of personal integrity, as well as the ability to professionally handle confidential matters, and show an appropriate level of judgment and maturity
- Experience with AES, ACE, SNAP-R and screening tools (e.g. OCR Ease, Visual Compliance).
- Proficiency in MS Word, Excel, PowerPoint, Visio

## **Preferred Qualifications**

- Knowledge of encryption controls
- Familiarity with technical product specifications and engineering drawings
- Knowledge of EU dual-use and BAFA export control regulation
- Previous experience in manufacturing environment

## **Benefits**

The starting pay range for this position is \$73,000 to \$88,000 per year however, the base pay offered may vary depending on the level of the position, skills, experience, job-related knowledge, and location.
